

Project #3 Rubric

Requirement	Points total	Grading criteria		
Named the File as required	10	(10 points) if the file named correctly.		
Code Comments and documentations (mistake corrected)	10	Header comment 5 points	Correcting the mistake in the comment 5 points (it should be obvious mistake)	
The code run without any errors (bugs corrected)	30	Each bug in the current code worth 5 points (there are 4 obvious bugs)	10 points if there is any other bugs. 2 bugs maximum for 5 each.	
Line 1	5	Implemented correctly 5 points	Little mistake 3 pints	Not correct 0 points
Line 2	5	Implemented correctly 5 points	Little mistake 3 pints	Not correct 0 points
Line 3	5	Implemented correctly 5 points	Little mistake 3 pints	Not correct 0 points
Line 4	5	Implemented correctly 5 points	Little mistake 3 pints	Not correct 0 points
Line 5	5	Implemented correctly 5 points	Little mistake 3 pints	Not correct 0 points
Line 6	5	Implemented correctly 5 points	Little mistake 3 pints	Not correct 0 points
Line 7	5	Implemented correctly 5 points	Little mistake 3 pints	Not correct 0 points
Line 8	5	Implemented correctly 5 points	Little mistake 3 pints	Not correct 0 points
Line 9	5	Implemented correctly 5 points	Little mistake 3 pints	Not correct 0 points
The Code run and preduce the correct output, meaning ECX = 1 if anagram. ECX =0 if not anagram	5	If Correct 5 points	If not correct 0 points	
Total	100
